

**The Non-Equilibrium Green's Function Method
For Nanoscale Device Simulation (Computational
Microelectronics)**

By Mahdi Pourfath

The non-equilibrium Green s function method: an -

We present an elementary introduction of the non-equilibrium Green s function method, applied to stationary quantum transport in semiconductor nanostructures.

The non-equilibrium Green's function method for -

For modeling the transport of carriers in nanoscale devices, a Green-function formalism is the most accurate approach. Due to the complexity of the formalism, one
